

# THE CONSCIOUS CONVERGENCE

...a wave of unity

July 17th-18th, 2010

The Conscious Convergence mission is to bring people together with the shared intention of cultivating a critical mass of harmonious energy that supports inner and outer reconciliation.

We come together in the spirit of unity to heal wounds that separate us, to reconcile conflicts that divide us, to inspire ideas and actions that express our oneness, and to join together in heart and mind to welcome the birth of our new world.

The Conscious Convergence is a global collaborative of individuals and organizations whose purpose is to set the intention for, and to demonstrate the fulfillment of, unity consciousness, both individually and within communities around the world. All wisdom and faith traditions are invited to join and help express how we, as an evolving species, can transcend age-old boundaries and ideologies to fulfill a greater destiny than our history may imply.

This global collaborative prepares us for the Ninth Wave of evolution of consciousness as indicated by the Mayan Calendar, a system developed by a respected, ancient civilization. Mayan elders invite us to align with the divine plan for humanity's greater fulfillment, to recognize that "we are one like the fingers of one hand." -Grand Elder Don Alejandro Cirilo Perez Oxlaj, "Wandering Wolf"

Local and global intention-setting activities, meditations and prayers will be synchronized throughout the months leading up to and following the main program on July 17th and 18th, 2010.

People are encouraged to create their own gatherings, ceremonies and meditations around our Shared Intention. Won't you join in to help us reach the critical mass as we initiate a New Wave of Unity on Planet Earth!!!

## SHARED INTENTION AGREEMENT

I, as a sovereign being, join together with All That Is to call forth the presence of balance and unity within me and in our world. I am the conscious presence of harmony and reconciliation and I am grateful for the wholeness I bring forth in this and every moment.  
And so it is.
